Computer Basics Classes

CALL TO RESERVE A SEAT in these instructor-led classes – 810.249.2569

(Drop-ins welcome if space is available)

Book an Expert

Book a half hour session with a Librarian or Subject Expert to assist with the basics of many technical and library issues.

Computers for Beginners

This 2-session class is an easy way to learn the basics, from mouse handling to surfing the Internet! No previous experience required. A new session begins every few weeks.

Microsoft Word for Beginners

Once you've learned the basic skills of using a computer, take this introductory course on Microsoft Word, where you will learn to create, edit, save, and print documents. This is an intermediate class.

Internet Skills: Beyond the Basics

Take your beginning Internet skills to the next level. In this class you will visit a variety of web sites with different types of useful information, and will learn a new Internet skill at each site. This is an intermediate class.

E-mail for Beginners

Email has become the most common form of on-line communication. It can be used to communicate with friends, relatives, and businesses. Learn how to sign up for a free web based Yahoo email account. Yahoo mail is easy to use and you can access your email messages from any computer connected to the Internet.

Be sure to check out the other great computer training resources linked from our web site!

Visit www.fpl.info and look for Learn & Create, then Computer Skills.
